

CRATED EARTH FARM

NATURALLY GROWN

2026 CSA Information

Community Supported Agriculture (CSA)

The CSA, or farm share, is an arrangement between CSA members and farmers where the member receives a share of the farmer's harvest each week during the growing season in exchange for payment at the beginning of the season. Members have an opportunity to support their local farmers, have access to fresh produce every week, and gain a better understanding of exactly what can be grown in Michigan. You will get to see the weekly harvest change with the seasons and have a better connection and appreciation for your food.

Our Produce

Here at Crated Earth Farm we grow non-GMO produce without the use of any pesticides, herbicides, or chemical fertilizers. We strive for a natural and sustainable approach in our farming methods and are Certified Naturally Grown.
